Knighton Wild Annual General Meeting
24th June 2026
Minutes

1. **Welcome**
   The meeting was called to order. Unfortunately, the meeting was inquorate. The chair explained the rules in the constitution for quoracy. With fourteen people present, the meeting didn't meet the requirement. It was agreed to carry on with the AGM, to vote on all the proposals, and to hold a Special General Meeting at the next public meeting (as required by the constitution) and ask members there to endorse and ratify the decisions made at the inquorate AGM.
2. **Reports**
   The treasurer and chair presented their reports which were accepted.[1]
3. **Election of committee**
   Nominations or volunteers for the committee were requested. Angela Bewick had stood down from the committee during the year. Christine Cheetham stood down at the meeting. Christine had been on the committee since Knighton Wild started and a vote of thanks was passed for her contributions and commitment over the years.
   The following were proposed, seconded and voted in *nem con* for the committee for the coming year.
   - Bev Hart
   - Nick Shields
   - Nicky Thompson
   - Simon Bennett
   - Steve Hart
   - Tim Hartshorne
4. **AOB**
   There were no items of other business so the meeting proceeded to the focus for the evening – the following talks by members:
   Simon Bennett – Knighton in NatureSpot – Thoughts on a few species in 2025-26
   Nicky Thompson – Hoverflies in Knighton
   Bev Hart – Hedgehogs and Hedgehog Rescue
   Alan Cann – Tiny Assassins: The Ecological Importance of Parasitoid Wasps
